

Data protection

Collection, processing and use of personal data

Our code of practice regarding data protection is consistent with the German Bundesdatenschutzgesetz (data protection law, abbreviation BDSG). The data and information that you give us help us to create an individual shopping experience with MYMITO for you and to improve it continuously. We use these pieces of information for processing orders and payments (in case of purchase on order also for required examinations), delivering goods and perform services. Besides, we use your information in order to communicate with you on orders, products, marketing offers or the newsletter as well as for updating our records and for keeping and maintaining your customer account as well as for showing contents e.g. your wish list or shopping cart and - in case of consent - for recommending you products and services that might be of interest for you. Furthermore, we use your information for improving our offer, for preventing an abuse of our website or for detecting such an abuse or for enabling third persons to perform technical, logistical or other services on our behalf. You can revoke your consent to this type of use of your data at any time per telefax, email or mail sent to us. We need your personal data for the fulfillment of your order. In order to fulfill your order we have to forward your data to our logistics partners. On demand we will provide information about personal data regarding your person. If you require this information, please send an email to contact@cubit-shop.com. Additionally we are obliged to correct, block or delete your personal data stored in our database.

Newsletter

If you register for our email newsletter, you will be asked to enter your email address. If you do not want to receive further emails, you will find a link for unsubscription in each newsletter. Additionally you may cancel your permission on our website.

Data security

Your data is protected using SSL 128 bit encryption according to the latest standards. Using this save data transmittance method your data will be encoded, before sending it to us, therefore your information cannot be seen by unauthorised persons.

Use of cookies

We use session cookies: they do not remain on your computer. When leaving our domain, your temporary cooky will be deleted automatically. Using these gathered information we can analyse usage profiles and structures of our website. Therefore cookies enable us to further optimise our website.

Additionally we use cookies enable our systems to recognise your browser and the storage of items in your Shopping Basket between visits.

All data stored in our cookies will not be connected with your personal data (name, address etc.). Without your approval we will not link data stored in our cookies to your personal data.

What are cookies?

A cooky is a small data file, which will be forwarded by us to your computer when surfing on our website. A cooky can only contain the information, which we send to your computer. If you accept cookies on our website, we have no access to your personal data, but wiht help of the cookies we can identify your computer.

Most browsers accept cookies. You may accept or refuse temporarily saved cookies

individually. When deactivating cookies some important features on our website will not work - and some important websites will possibly not be displayed correctly.

In order to use our shopping basket, you must accept temporary cookies!

Activation of cookies

Microsoft Internet Explorer:

Extras --> internet options --> data protection --> advanced settings --> accept cookies

Mozilla Firefox:

Extras --> settings --> data protection --> Cookies --> accept cookies

Opera:

File --> settings --> privacy / cookies --> Accept all cookies without enquiry

Usage of tracking tools

On our website data is collected and saved for usage of marketing and optimisation. You can always refuse this data collection and storage effective starting from the day of refusal. This website is using Google Analytics, a website analysis tool from Google Inc. ("Google"). Google Analytics uses cookies, which are text files that are being saved on your computer thus enabling an analysis of the usage of this website. The information gathered through these cookies about this website (including our IP address) will be forwarded to a Google server in the United States and stored. Mymito will use this information in order to analyse their website, to extract reports about website activities and to fulfill services connected to the usage of the website and the internet. Additionally Google will forward this information to third parties, if this is mandatory by law or if third parties have been contracted to process this data on behalf of Google. Google will in no case connect your IP address with other Google data. You can refuse the installation of cookies through a specific setting of your browser software. In that case we have to inform you, that you may not use all functions of this website. Through the usage of this website you accept the processing of your data through Google in the above mentioned way.
